

## Palace Road Streatham

Nine contemporary apartments have been completed for CY Homes in Streatham, on a garden site adjacent to a former GP Surgery.

Alexander Sedgley designed the development as a 3 storey block with all apartments benefiting from open aspect views towards the reservoir opposite, or the private landscaped rear garden.

The restrained grey fenestration takes inspiration from the existing Victorian houses in the area. Each unit was designed to maximise on natural light and views, with access to a private balcony space from the living spaces.

The second floor mansard roof has been finished in contrasting 'Westmoreland' green slate.

The project was completed in 10 months by the developer/builder

**Client:** CY Homes

**Architect:** Alexander Sedgley Ltd
